Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
 2. The definitions in, and provisions of, *AASB 1026: Statement of Cash Flows* apply to this report except for the paragraphs of the Standard set out below.
 - 6.2 - reconciliation of cash flows arising from operating activities to operating profit or loss
 - 9.2 - itemised disclosure relating to acquisitions
 - 9.4 - itemised disclosure relating to disposals
 - 12.1(a) - policy for classification of cash items
 - 12.3 - disclosure of restrictions on use of cash
 - 13.1 - comparative information
 3. **Accounting Standards.** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.

ADDITIONAL INFORMATION

30 January 2009

The majority of cash usage during this quarter was because PEV commenced large-scale mining at Mantuan Downs. There were substantial mining start-up costs for plant & equipment, road construction, fencing, and accommodation and storage facilities. In addition, a bentonite testing laboratory and sales office has commenced in Brisbane.

All facilities required for production and sales are now in place, and the ongoing cash flow requirements are substantially lower than for the subject quarter.

The unusual wet weather continued to impact operations, but a significant tonnage has been produced for sun drying, and screened and shipped for trials and sale to end users.

Agricultural applications continue to be trialled in conjunction with large agribusinesses, and several sales have been made:

- a major cotton grower in Northern NSW for soil enhancement,
- a large Australian compost-based fertilizer manufacturer for blending ,
- a supplier of vegetables to the supermarkets, and they have reported the results as excellent,
- an export shipment to New Zealand has opened up further opportunities for our high quality calcium bentonite over there.

A shipment of bentonite was delivered to the Government of Nauru for trials to improve the growing conditions for vegetables in their poor quality soils.
