ADDITIONAL INFORMATION

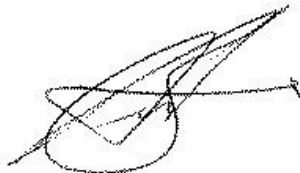

29 October 2010

The Company has a number of potential joint venture partners and direct equity investors seeking to invest in the exploration and development of the Company's coal exploration projects. During the quarter the company completed further evaluation of the tenements with a view to maximising the return for shareholders in the course of negotiations.

The proposed drilling program on EPC 1827 has been deferred because a number of interesting development opportunities have surfaced following the settlement of MacCarthur Coal's acquisition of the adjoining MDL162.

Blackwood Resources Pty Ltd have made a further instalment payment on their agreement.

The forthcoming Annual General Meeting will seek shareholder approval to enable it to raise additional capital from potential joint venture partners. The directors consider this to be an important step that will enable the Company to undertake it's exploration program and maximise the shareholders return from the tenements.
