

ASX ANNOUNCEMENT

2 APRIL 2025

Dartbrook Financing and Operations Update

- Existing Senior Debt Facility increased from US\$90 million to US\$104 million to provide additional Working Capital for the Dartbrook Joint Venture
- A new A\$5 million unsecured loan from major shareholder Trepang Services Pty Ltd
- Wet plant in advanced stages of completion

Australian Pacific Coal Limited (ASX: AQC) (“AQC” or the “Company”) is pleased to provide details of an updated financing package for the Dartbrook project and an update on Dartbrook operations.

Funding Update

The Joint Venture (“JV”) has entered into an amendment of the senior secured facility with Vitol Asia Pte Ltd (“Vitol”) to increase the commitment from US\$90 million to US\$104 million¹.

Additionally, AQC has entered into a A\$5 million unsecured loan with Trepang Services Pty Ltd (“Trepang”)¹ on arm’s length terms. AQC has agreed to on-lend the A\$5 million to the Dartbrook Joint Venture via an upsize to the existing shareholder loan between AQC and the JV.

The updated finance facilities serve to provide additional working capital during the continued production ramp up in a backdrop of softer global coal prices.

Operations Update

The wash plant refurbishment program is in its advanced stages of completion, ahead of schedule and with-in budget, with commissioning and testing now commencing. Washed coal is expected to be available for train loading during April subject to successful commissioning.

Australian Pacific Coal’s Executive Director, John Robinson, said:

“The untimely softer coal price environment, coinciding with the resumption of the Dartbrook underground mine has necessitated a top-up to existing finance facilities to provide additional working capital.

“The continued strong support from Vitol and Trepang is testament to the quality and potential of the Dartbrook asset, delivery of project milestones, and disciplined stewardship by the Dartbrook Joint Venture partners.

“Pleasingly, the Dartbrook Joint Venture has commenced its recommissioning and testing of the wash plant, which will enable the Project to produce its targeted high quality coal product. We look forward to providing additional updates in due course.”

#####

This announcement has been authorised for release to the ASX by the Board of Australian Pacific Coal Limited.

About Australian Pacific Coal Limited (ASX: AQC) and the Dartbrook Project

Australian Pacific Coal Limited (ASX: AQC) has recently resumed underground mining operations at the Dartbrook Coal Mine following successful execution of a restart capital program in 2024. Located in the Hunter Valley, NSW, approximately 4 km west of Aberdeen and 10 km north-west of Muswellbrook, Dartbrook has access to world-class infrastructure, a skilled workforce, and support industries utilised by major mining companies in the region. The Dartbrook mine has previously produced a high-quality high-energy low-sulphur thermal coal (NEWC spec).

The Dartbrook Joint Venture comprises Australian Pacific Coal Limited (80% direct interest via subsidiaries, and 70% economic interest) and Tetra Resources Pty Ltd (20%, via subsidiaries).
